

Annex of the Country Assistance Policy

Rolling Plan for the Republic of Nauru

As of April 2016

Basic Policy of Assistance	Accomplishment of Sustainable and Environment-Friendly Economic Growth and Improvement of Living Standards
----------------------------	--

Priority Area 1	Environment / Climate Change											
Development Issue 1-1 Climate Change	[Background and current situation] Nauru has a small land mass and its people's livelihoods are centralized around coastal areas leaving them quite vulnerable to the impact of climate change such as coastal erosion, sea level rise. While the National Disaster Management Office has been established recently, specific measures/plans to address these issues have not been established. Though Nauru has a Meteorological Observation Station, the country's capacity to deliver effective disaster risk reduction is still not sufficient.					[Strategy] Japan provides assistance in the field of climate change, mainly meteorology and disaster risk reduction, in line with Nauru's National Sustainable Development Strategy (NSDS).						
	Japan's Assistance Program	Program Summary	Project	Scheme	Schedule						Assistance Amount (100 Million Yen)	Note
					Before JFY 2015	JFY 2016	JFY 2017	JFY 2018	JFY 2019	JFY 2020		
	Disaster Risk Reduction Program	In the field of disaster prevention, capacity building will be carried out through third country training of weather forecasters under the regional technical cooperation project. At the regional level, assistance will be provided through a regional disaster advisor that will be based in Fiji (SPC).	Project for Reinforcing Meteorological Training Function of FMS	TCP								Regional Project based in Fiji
		Project for Strengthening Multi-hazard Risk Assessment and Early Warning Systems in Pacific Island Countries	ML							1.24	UN/ESCAP	
		Pacific Leaders' Educational Assistance for Development of State (Pacific LEADS)	TR								Also written in other program	

Priority Area 2	Overcoming Vulnerability											
Development Issue 2-1 Sustainable Economic Development	[Background and current situation] Basic infrastructures in key sectors are underdeveloped, however Nauru Government is trying to restore fiscal health and develop infrastructures for economic growth based on NSDS.					[Strategy] Japan, taking account of NSDS, provides assistance that supports the restoring of fiscal health and strengthening of infrastructure for economic growth.						
	Japan's Assistance Program	Program Summary	Project	Scheme	Schedule						Assistance Amount (100 Million Yen)	Note
		Japan provides assistance to support infrastructure development relating to basic human needs. Program for Economic Infrastructure Development and Improvement of Management and Maintenance	Grant Aid for Water Supply	GGP	Before JFY 2015	JFY 2016	JFY 2017	JFY 2018	JFY 2019	JFY 2020		
			Training Courses for Water Resource Management	TR								
			Economic and Social Development Programme	GA							4.00	Fuel for diesel power plant, workboats, etc.
			Training Courses for Port Development	TR								
			Pacific Leaders' Educational Assistance for Development of State (Pacific LEADS)	TR								Also written in other program
			Fisheries Development	MAFF-TA								EXP, EQ
	The Project of Desalination(RO) System and Solar Power Generation		ML							US\$4 million	PEC Fund	
Development Issue 2-2 Improvement of Health and Medical Services	[Background and current situation] In Nauru, due to small population, securing necessary human resources and capacity development are major challenges. In addition, the geographical remoteness of the country makes it difficult to obtain necessary equipment for health and medical services. Non Communicable Diseases (NCDs) are becoming main causes of morbidity and mortality thus improving preventative measures is highly required.					[Strategy] In line with the Government of Japan's health sector-specific policy "Basic Design for Peace and Health", capacity building of health professionals through issue-based training will be provided as measure against non-communicable diseases (NCDs).						
	Japan's Assistance Program	Program Summary	Project	Scheme	Schedule						Assistance Amount (100 Million Yen)	Note
		Japan provides assistance to tackle with NCDs and to improve health and medical services. Pacific Islands Health and Medical Program	Health and Medical Fields Training Courses	TR	Before JFY 2015	JFY 2016	JFY 2017	JFY 2018	JFY 2019	JFY 2020		
			Pacific Leaders' Educational Assistance for Development of State (Pacific LEADS)	TR								Written in other program
	Economic and Social Development Programme		GA							2.00	Medical Equipment
